BOND PROPOSITION VOTED DOWN.

Little Interest in Election Shown
By Light Vote—234 Favor
And 312 Oppose Bonding.

DR. EZRA C. WILLIAMS DEAD.

August Weddings—New Citizens Admitted—Convalescent Escapes
Watchers.

Ogden, Utah, Aug. 2.—The proposition to bond the city for \$75,000 for the extension of the sewer system in the first ward, was lost in the special election held here yesterday.

Little interest was taken in the subject and the vote was remarkably light, the total number polled being but 546. The bonds were voted in but one ward, the first, where the greater portion of the sewers would have been constructed. In that ward the issue carried by the small majority of 53. The chief reason for the defeat of the proposition lay in the fact that the subject was complicated in the public mind at least, by the waterworks question, the voters opposing the bond issue on the ground that it would make it more difficult for the city to obtain its own waterworks system. It is further stated that the waterworks were incurred for other improvements.

Furthermore, a large number of taxpayers did not understand that the expense of constructing would be paid for by the property owners in the district where the work would be done, the city simply issuing the bonds and taking the property as security. This vote in the various wards follows:

First—For, 113; against, 90.
Second—For, 20; against, 32.
Third—For, 12; against, 25.
Fourth—For, 48; against, 56.
Fifth—For, 41; against, 69.
Totals—For, 234; against, 312; majority against, 78.

INVALID ESCAPES WATCHERS.

Glenn Carlow, the young man who was seriously injured about a week ago when he fell from the depot yards last Friday, and who has not yet thoroughly recovered his mental faculties since the accident, got away from his home last night and caused considerable excitement for a short time. The boy has been in the hospital since the accident until yesterday afternoon, when he was taken to the home of his parents, Mr. and Mrs. Thomas Carlow. He was immediately with the notion that he should go to visit a young woman who was in the burg with him and his companion at the time of the accident. He was dissuaded for a time, but during the temporary absence of his attendant the boy slipped out of the back door and came down into the business district. It was some time before he was located and then he did not wish to return home, but was finally persuaded to do so by Frank Livingston, the other young man who was in the rig with him.

INJURED MAN SENT HOME.

Nick Jerka, the young man who was shot in the leg in the depot yards last Friday, and who since that time has been at the city jail, left last night for Milwaukee, Wis. Recent developments have corroborated Jerka's story about himself in every particular, showing that he was a machinist in hard luck. He was enabled to go east, as his father telegraphed money to Chief of Police Browning and asked that a ticket be purchased and the boy sent home. A letter received Monday by the injured man conveyed the information that his brother was one of the victims of the explosion on board the Bennington man-of-war in San Diego harbor two weeks ago.

Provo, Utah, Aug. 2.—The following persons have been admitted to citizenship: Stephan Angel of Eureka, a native of Italy; Julius Miller of Eureka, a native of Germany; Henry Dickman of Eureka, a native of England; Wm. Kitchen of Eureka, a native of Germany; and Edwin Gudgson of Provo, a native of England.

The complaint charging R. S. Ham-

mond with burglary, taking some tools from the R. G. W. machine shop at Thistle where he had been at work and which defendant claims were his own, has been changed to a charge of petit larceny by the prosecution. It is believed the company still claims that some of the tools taken by Mr. Hammond belonged to the company, while he claims he took only his own, and as he took them openly and in the presence of other workmen, that seems probable.

The hearing in the case of the state vs. Glen and Otto Weeter, charged with disturbing the peace, under the juven-

iled law has been postponed till August 15.

GARDEN CITY NOTES.

Revenue Collector Callister was down from Salt Lake yesterday.

A number of people coming in on R. G. W. trains from the east yesterday were rubbed of amounts from \$20 to \$100. The work is supposed to have been done by a gang working out of Denver, and it is believed they got off at Provo. The thieves were reported to the officers here by the railroad company, but as the victims went on it is not likely the guilty parties will be arrested or identified if they are.

One of the equestriennes of the Barnum & Bailey circus was hurt in the ring last evening while trying to leap from the ground on to a horse. She missed the animal, her horse bucked and she was thrown to the ground. The injured woman was carried from the ring and given attention by the company's doctor. Neither her name or the extent of her injuries could be learned.

THE TOWER OF IVAN THE TERRIBLE.

The section of wall and the tower shown in the cut mark one of the most historic spots in the great Moscow Kremlin. It was from this tower that the pitiless czar used to gaze down upon the execution of his enemies. It is 222 feet in height and is topped by a

gilded minaret. It contains thirty-four bells, aggregating 180,000 pounds. The Kremlin contains many great bells. One of them, called the Czar bell, has fallen from its tower and now rests on a pedestal in the palace square. It weighs nearly 199 tons and is sixty feet in circumference. It is reputed to be the largest bell in the world.

The scene here depicted is one which illustrates and also emphasizes the difference between the two great armies that are now face to face in Manchuria. Much criticism has been directed against the Russian lack of proper medical and surgical arrangements at the front. The Japanese, on the other hand, are credited with the most perfect organization of this kind ever known.

Some of our townfolk are intending to leave in a few days for Vernal to try their luck on the Utah reservation. Elder Eugene Hansen returned home last week from a 28-month mission in the western states. A welcome home reception was tendered him the 28th inst.

COLLEGE AND SCHOOL FACULTIES.

The Brigham Young college has secured the services of Prof. J. W. Jensen who until recently was professor of civil engineering at the agricultural college. We are glad to know that Mr. Jensen will remain in our midst, and the college is to be congratulated for securing his services.

Ira Cole has been selected as principal at the Woodruff school, and W. G. Ruse will perform a similar service at the Benson.

The county commissioners are in regular session today.

LAWING OVER WATER.

The people of Wellsville and Hyrum are about to begin lawing over their water rights. It is a pity that wiser counsels could not prevail and their differences be settled by arbitration and the expenses and ill feeling of litigation avoided.

Charles Jarman, each weighing 10 pounds, Mr. and Mrs. J. H. Blackner have each been made happy by the arrival of a son.

Mrs. Bradshaw and Mrs. Hollingshead, of Hyrum, Utah, are here visiting their children.

STAKE FULLY ORGANIZED.

Prosperous Season for Star Valley Farmers.

Special Correspondence.

Afton, Uinta Co., Wyo., July 26.—The nation's natal day, as well as Pioneer day, were patriotically observed.

Star Valley has indeed enjoyed an ideal summer. All kinds of crops are doing well. Harvesting the first crop of lucern is well under way, and all sorts of crops are doing well.

New potatoes and all kinds of garden stuff are now in the market.

The stake presidency is now fully organized. In the forenoon a business meeting was held by the family at the home of Omer S. Call, Rigby, where the temple work for the 1,800 dead relatives whose names were the primary topic of discussion. Then dinner was spread in the opera hall, where the family and a few invited guests, among whom was the Rigby brass band, in all number 125, sat down to a sumptuous feast.

Dinner was followed by a program, in which humor, mirth, and music were conspicuous features. But the principal part of the day's enjoyment was reserved for the evening, when the family gave a free entertainment to the public. The commodious opera hall was literally packed and the program came off very well for any friends who happened to be absent.

Where all was excellent, it seems invidious to specialize, but the fine music of Miss Margaret Call, a graduate of the Brigham Young university, Provo, and the rich tenor of Elmer Call from Baltimore, called for unattending applause and hearty echoes.

A sketch of the family history by City, J. O. Call of Brigham City, and an original poem by Mrs. Esther Call Stewart of Provo, narrating the burning of the house and driving the family of Cyndi Call when located near Nauvoo in 1845, were highly appreciated.

The singing of "The Star of Bethlehem" connected with the Mormon Battalion history, by O. and H. Call in their own inimitable manner.
